Other Services

1) Visa Consulting

We specialise particularly in skilled and business class visas. The Department of Immigration and Citizenship (DIAC) offers a range of visa types to people from abroad wishing to work in Australia. This can provide an exciting opportunity for Australian companies to employ people from overseas and benefit from their wide range of international experience, or to access skills that are not readily available in the Australian labour market. The following is a summary of two popular visas currently available.

Sponsored Business Visitor – Temporary Visa (subclass 457)

Many Australian companies are utilising the sponsored business visitor program. This program enables companies to sponsor a person(s) from overseas to work for their company in Australia for a period of up to 4 years.

Employer Nomination Scheme (ENS) – Permanent Visa (subclass 121/856)

This is a permanent visa and is available for highly skilled people who are nominated by an employer through the Employer Nomination Scheme. The first stage of this process is for the company to show that the position which they nominate needs a highly skilled person and that the position is full time and fixed for at least three years.

We have extensive experience in Australian migration law, and have two solicitors and two migration agents on staff.

Our service is friendly and professional. We can give you the assistance you need to succeed!

Other Services

2) Education Consulting

Consultancy for international students to study in Australia

Since we started this services in 1997, we annually place approx 700 Japanese students and over 100 international students in various educational institutions across Australia. In addition to its educational counseling services, we also provide a comprehensive range of student support programs including travel arrangements, accommodation and housing, Medicare and insurance guidance, visa advice, translation and interpreting services, study program seminars and career development workshops.

For those who think all language schools are the same:

Through our cooperation with Australia's largest schools and our diverse range of information, we can find a school that will suit your requirements. Our information network throughout all of our branches ensures the support you need while studying in Australia.

For those who are thinking of going to University, TAFE, College or a Language School :

Staff Solutions Australia has successfully placed thousands of students at Universities in undergraduate and postgraduate positions as well as TAFE institutions. Our consultants can assist you in finding the right course for your future success.
